## **UNDERSTANDING DOG BEHAVIOR**

**Why do our pets act the way they do?**

Please accept our invitation to this informative session on dog behavior. Learning how to better understand dogs will improve our relationship with our pets and our neighbors. Our pets can be like a mirror image of ourselves in how we interact with and train them. In this session, we will introduce the basic elements of Responsible Pet Ownership in Rocky Mountain House. Learn to interpret and respond appropriately to behaviors our dogs display in every day life.

Join us for an open dialog session with a dog expert, bylaw officers, and other residents in our community in promoting Responsible Pet Ownership.

The session will be facilitated by Maverick Dog Works - Nikeae Michalchuk. She is a Certified Professional Dog Trainer(CPDT) and is a qualified Court Expert Witness in eight areas of Canine Behavior. Nikeae has over 15 years' experience as a Peace Officer / Specialty Dog Handling in Alberta.
