

Trevor Kalyn

Councillor candidate

As a lifelong resident of Rocky Mountain House I have deep roots in this town and community and a vested interest in its well-being and growth. My family and friends are here, I have raised children here, and I intend to stay for a long time yet.

I come to the table with thirty years of experience in construction and development in this area. For the past nineteen of these years I have been in charge of a successful contracting company, utilizing local tradespeople and local businesses for commercial and residential projects. Through this I have gained expertise in navigating municipal and county regulations in order to get projects moving and completed, in an effective and efficient way.

I am a committed volunteer with over eleven years of service to the Rocky & District Baseball Association, six of these as president. In this time the RDBA has undergone transformative growth, contributing funds and labour to the improvement of the ball diamonds, and bringing in hundreds of visitors yearly to enjoy local facilities. In 2022 the RDBA won Baseball Alberta's award for Medium Association of the Year, and that same year I was nominated Community Builder of the Year by the Town of Rocky Mountain House. In 2023 the Rocky Rams named me the Master's Games Community Ambassador and recipient of their Special Recognition Award. Also in 2023 I was given the Mayor's Recognition Award for Volunteer Service.

My commitment to volunteering and to local businesses is based on my belief in the value of this town. Our youth are one of our strongest assets and as leaders it is the responsibility of town council to help ensure that they want to be here. It is our job to continue to make Rocky a place that people want to live and to invest their time, energy, and talents.
