

Kevin Stalker

Councillor candidate

I believe in transparency and accountability the Residents of Rocky Mountain House. I will represent a conservative approach to expenditures and will focus on core service delivery and maintenance of current town facilities.

Experience that will allow me to be an Effective Councilor

- I have been involved with the Rocky Taxpayers' Association (RTA) since inception, 2021. As the current President I have monitored council meetings, have an in-depth understanding of current and proposed budget expenditures and understand where your tax dollars are being spent.
- As of June 2024, I have been retired after 37 years as a Fish and Wildlife Enforcement Officer. My experience, as one of three Superintendents for the Province of Alberta has provided me a strong foundation in budget management, procurement and managing political relationships with numerous Ministers and Members of the Alberta Government.
- I have been a resident of Rocky Mountain House for over 20 years and recognize our town is the jumping off point and premier location for outdoor recreation.
- I have volunteered and helped with ROAR fund raisers, the Rocky Hospital Foundation and worked closely with the Rocky Over Thirty Hockey League.

Why I Chose to Run for Town Council

- For over three years I have observed some members of Town Council endorse expenditures that don't reflect the fiscal realities that we currently face as residents and taxpayers.
- I believe in open dialog with you the residents and have the time and commitment to be fully available to you, prepare and engage all aspects of committee work and be present at all council meetings.
- I have a great love for our community and believe Town Council needs to engage the public, County and our First Nations' Community to develop a shared vision that will allow our community to develop new recreational facilities, attract new business opportunities and allow our children to thrive, grow and remain in Rocky Mountain House.

I look forward to your engagement, questions (403-418-8250) and support. Please vote: October 20, 2025.
