

Len Phillips

Mayoral candidate

My past includes serving as a two-term President of the Rocky Chamber of Commerce, a two-term President of the Rocky Kinsmen Club, President of the Over 30 Hockey League, I've owned and operated my own small business in Rocky Mountain House and managed the Zellers store in Rocky Mountain House. I'm also a highly trained facilitator in team building, conflict resolution and communication and also a top realtor.

I am a father of three children, eight grandchildren and my loving very supportive wife Jenn is always there for me.

My seven years on Town Council and the last 11 months serving as Acting Mayor plus my past life experiences has all brought me to a point in my professional and personal life where I can be the best and most effective Mayor the residents of Rocky want and deserve.

More housing options in all categories, business attraction and retention in both commercial and industrial sectors, enhancing existing and creating new recreation amenities so families have an amazing Town to enjoy an above average quality of life are just a few of the many important issues to move forward.

As always keeping taxation low is a must. Creating a new tax base through growth and new development is paramount so that the burden isn't solely put on the backs of the existing residents and businesses.
