

TOWN OF ROCKY MOUNTAIN HOUSE

MESSAGE FROM THE MAYOR

March 18, 2020

Hello Rocky Mountain House and surrounding communities,

We are facing unprecedented times. You may be experiencing anxiety, confusion and fear of the unknown. I want to assure you that the Town of Rocky Mountain House is following all recommendations and directives set out by Alberta Health. We will be keeping everyone up to date by posting any changes to our website and facebook page.

We have always been a community that takes care of one another. I know we will continue with all these acts of kindness as neighbours help neighbours and we all look out for one another.

I also want to thank all of our healthcare workers, truck drivers and store workers that are keeping food and medication stocked and any others that are continuing to provide essential services during this time. The social and economic impacts will be far-reaching. Please support our local businesses when possible.

I've had many people reach out to say they are also thinking of us, and praying for us to make sound decisions in these difficult days. We appreciate all your support.

We know that we are a loving and caring community. This will not change.

We will work together to safely get through this.

Mayor Tammy Burke
Town of Rocky Mountain House
