

RESIDENTIAL SPEED REDUCTION

Exciting news for safer streets! Council has passed Amending Traffic Bylaw 2025/08 which reduces the speed limit to 40 km/h in most areas of Town.

This change follows earlier speed reductions made in the neighbourhoods of Creekside (2020) and McNutt (2024) to improve road safety.

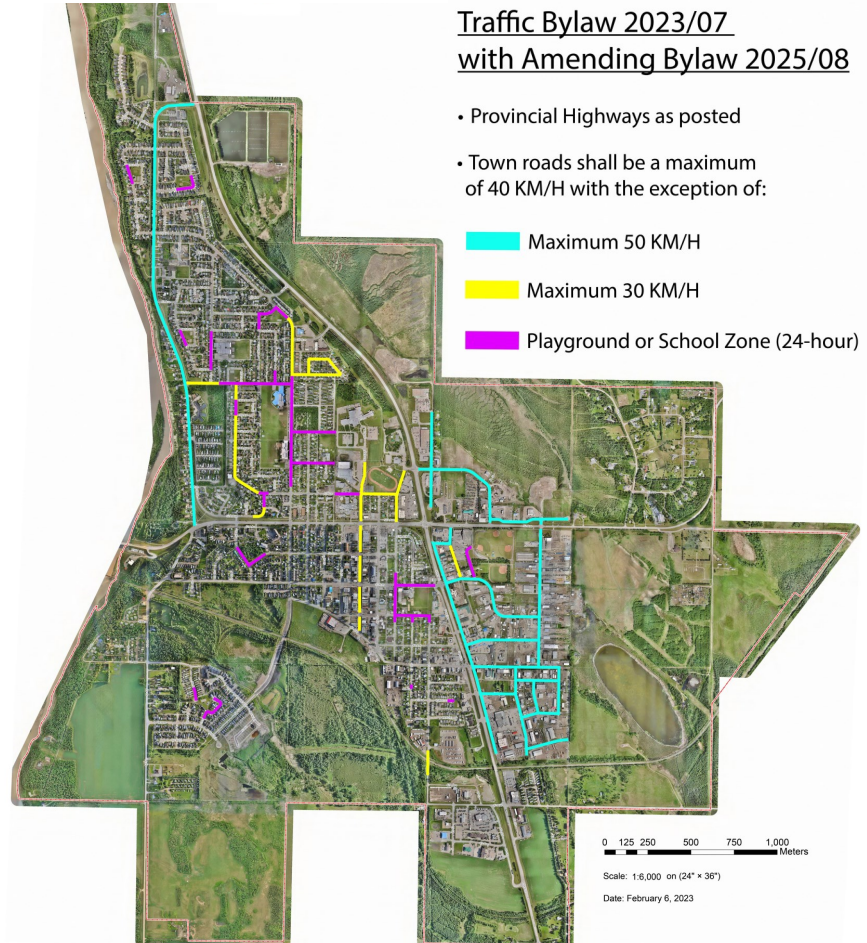

Reducing speed limits on residential streets, downtown and high pedestrian areas makes our streets safer. Slowing down gives people more time to react to the unexpected to prevent crashes and reduces the severity of collisions that do happen.

The current posted speed limit signage must be followed and adhered to until replaced with the updated signage. Transitioning signage across Town will occur as weather permits. The public will be notified when this transition starts.

Let's embrace this change and slow down to continue to keep our streets safe.
