

L-R: Deputy Mayor Trevor Kalyn, Councillor Ken Moesker, Councillor Dale Shippelt, Mayor Shane Boniface, Jody Layden, Jack Lumley, Clearwater County Reeve Jordan Northcott, Councillor Justin Sinclair, Councillor Kevin Stalker and Councillor Denise Boniface.

About the Project

- Approximate project value: **\$30 million.**
- Features a **state-of-the-art sequencing batch reactor system.**
- Processes wastewater from **Rocky Mountain House and Clearwater County.**
- Designed to serve an anticipated population of **9,000 residents.**
- Projected average daily flow in 2046: **3,983 cubic metres per day.**
- Maximum daily capacity: **11,246 cubic metres per day.**
- Meets provincial and federal environmental standards.
- Supports future residential, commercial and industrial growth.

WASTEWATER TREATMENT PLANT CELEBRATES GRAND OPENING

The Town of Rocky Mountain House, Clearwater County, project partners and funding representatives gathered on September 17 to celebrate the official opening of the new regional wastewater treatment plant, a major investment in environmental stewardship, reliable infrastructure and the future growth of the region.

The new facility meets evolving environmental standards while supporting the long-term needs of Rocky Mountain House and Clearwater County residents.

“Most people will never see what happens inside a wastewater treatment plant, but all of us benefit from it every day,” said Mayor Shane Boniface. “This facility gives our region the capacity it needs to support future homes, businesses and investment.”

Reeve Jordon Northcott called the project “an important investment in the future of our region,” adding, “Thank you to everyone who helped make this project possible, and congratulations on its completion.”

The \$30-million project was funded through contributions from the Government of Canada and the Government of Alberta, along with investments from the Town of Rocky Mountain House and Clearwater County through the Wastewater Treatment Capital Funding Agreement.

“Today marks the culmination of years of planning, collaboration and investment in critical infrastructure that will benefit this region for decades to come,” said Jody Mercier-Layden, on behalf of Rimbey-Rocky Mountain House-Sundre MLA and Minister Jason Nixon.

Jack Lumley, on behalf of MP William Stevenson, noted the project is “a testament to the hard work and cooperation of everyone who helped bring the project to completion.”

Mayor Boniface said the project demonstrates “what can be accomplished when governments work together toward a common goal.”

RESIDENTIAL COLLECTION SCHEDULE

October 2026

SUN	MON	TUE	WED	THU	FRI	SAT
				1 	2	3
4	5 	6	7 	8 	9	10
11	12 	13	14 	15 	16	17

ALBERTA'S ENHANCED RECYCLING PROGRAM IS HERE

Rocky Mountain House's recycling program is now managed by Circular Materials, a not-for-profit Producer Responsibility Organization.

What's staying the same?

- Curbside collection will continue every other week:
 - ⇒ WEDNESDAY collection route: South of Hwy. 11A and West of Hwy. 11
 - ⇒ THURSDAY collection route: North of Hwy. 11A and East of Hwy. 11
- Residents will continue to use their blue carts for collection.
- There's no need for sorting.
- Empringham Disposal is the contracted collection company for Rocky Mountain House.

What's changing?

- You will now be able to recycle:
 - ⇒ Glass containers (jars and bottles)
 - ⇒ Foam packaging (meat trays, takeout containers, cups, plates, bowls, Styrofoam)
 - ⇒ Flexible plastic packaging (films and wraps)
 - ⇒ Metal containers (pie plates, frozen food trays)
 - ⇒ Aerosol containers (hairspray, whip cream containers)
 - ⇒ Laminated paper and plastic packaging (chip bags, cereal liner bags, gift bags)
- Municipalities and ratepayers no longer pay for these recycling services as the cost is now paid by producers—the companies that supply packaging and paper.

Recycling collection questions (replacement carts, missed collection, etc.)?
